HG1J 4.3" HMI

Compact and Feature-Packed PCAP Touchscreen Display

Product Description

The HG1J 4.3-inch PCAP HMI display offers an unmatched combination of compact size and powerful functionality. Designed for applications where space is at a premium, this feature-packed HMI maximizes display area while minimizing footprint.

With 16 million colors, 500 nits of brightness, and a 480 x 272 resolution, the HG1J delivers a high-quality user experience. It operates reliably with a 12-24VDC input voltage and functions within a wide temperature range of -20°C to 55°C, making it suitable for various industrial environments.

Key Features

- Supports MQTT, EtherNet/IP, Modbus TCP/IP, and BACnet/IP
- Remote Access, FTP, Email, Twitter/X, Mobile App, and more
- 480 x 272 pixels, 16 million colors with 500 cd/m² brightness
- 12-24 VDC input and a 50,000-hour backlight life
- Wide operating temperature range from -20°C to +55°C

HG1J

Quantity: 1

| Display screen	Operation style	Communication interface	Bezel color	Approvals	Part No.

Dimensions

All dimensions in mm.

- Dimensions in blue show the mounting dimensions of the cable.
  USB and LAN interfaces are as shown in the dimensional drawings above.
  When installing, take into consideration the space required for your USB device or LAN cable.
- Install the operator interface into a panel cut-out by tightening the two mounting clips (supplied) to a torque of 0.3 to 0.4 N·m.
  Do not tighten with excessive force, otherwise the main unit may become distorted and waterproof characteristics may be lost.

Mounting hole layout

All dimensions in mm.

- Panel thickness: 1.0 to 5.0mm

IDEC

General Specifications

Rated power voltage	12/24V DC
Power voltage range	10.2 to 28.8V DC
Power consumption	4W maximum when not using USB1 or USB2 3W maximum when Backlight OFF 12W maximum
Allowable momentary power interruption	10ms max. (power supply voltage 20.4V DC) 1ms max. (power supply voltage 10.2V DC)
Inrush current	40A maximum
Dielectric strength	500V AC, 5mA, 1 minute between power and FG terminals
Operating temperature	-20 to +55°C (no freezing)
Operating humidity	10 to 95%RH (no condensation)
Storage temperature	-20 to +70°C (no freezing)
Storage humidity	10 to 95%RH (no condensation)
Pollution degree	2
Vibration resistance	5 to 8.4Hz single amplitude 3.5mm, 8.4 to 150Hz acceleration, $9.8M/s^2$ on each of 3 mutually perpendicular axes (IEC 61131-2)
Shock resistance	$147m/s^2$, 11ms, 3 shocks on each of 6 directions in X, Y, and Z 3 axes (IEC 61131-2)
Noise immunity	Fast transient/burst test Power terminals: 2kV Communication line: 1kV (IEC/EN 61131-2)
Electrostatic discharge	Contact: 6kV Air: 8kV (IEC/EN 61131-2)
Corrosion immunity	Free from corrosive gases
Mounting	Panel mount (panel thickness: 1.0 to 5.0mm)
Degree of protection	When panel thickness is between 1 to 1.6mm: IP65F (IEC 60529) When panel thickness is between 1.6 to 5mm: IP66F, IP67F (IEC 60529) TYPE 4X, TYPE 13
Dimensions	123.8 (W) x 86.5 (H) x 41.3 (D) mm
Weight (approx.)	260g

Display Specifications

Display	TFT color LCD (TN type)
Color / Shade	16,770,000 colors (24-bit color)
Effective display area	95.04 (W) x 53.856 (H) mm
Display resolution	480 (W) x 272 (H) pixels
DPI	0.198 (W) x 0.198 (H) mm
View angle	Left/right/top/bottom: 80°
Backlight	White LED
Backlight life	50,000 hours minimum
Brightness	500 cd/m^2 (Typ.)
Brightness adjustment	32 levels
Backlight replacement	Not replaceable by user
Font	Shift_JIS (Japanese) ANSI1250 (Central ISO8859-1 (European) European language) GB2312 (Simplified Chinese) ANSI1251 (Baltic) BIG5 (Traditional Chinese) ANSI1251 (Cyrillic) KSC5601 (Korean) ASCII (7-seg)
Number of display characters	Font size 16 (default): 60 characters x 11 lines
Character attribute	Blink (1 or 0.5 sec period), reverse
Graphics	Straight line, polyline, rectangle, circle, arc, circle/ ellipse, equilateral polygons (3, 4, 5, 6, 8) picture
Window display	3 popup screens + 1 system screen

Operation Specifications

Switching element	PCAP (Projected capacitance) method
Multiple operations	Up to 2 points
Acknowledgment sound	Electronic buzzer or audio output

Function Specifications

Screen types	Base screen, popup screen, system screen
No. of screens	Base screen: 3000 max. Popup screen: 3015 max.
User memory	Approx. 24MB
Parts	Bit Button, Word Button, Goto Screen, Print Button, Key Button, Multi Button, Keypad, Numerical Input, Character Input, Pilot Lamp, Multi-State Lamp, Picture Display, Message Display, Message Switching Display, Alarm List Display, Alarm Log Display, Data Log Display, Numerical Display, Bar Graph, Trend Chart, Pie Chart, Meter, Calendar, Bit Write Command, Word Write Command, Goto Screen Command, Print Command, Timer, Screen Script Command, Multi Command
Calendar	Year, Month, Day, Hour, Min., Sec., Day of Week±60 sec per month (at 25°C)
Power failure backup data	Calendar, log data, keep relay, internal register
Backup time	20 days (Typ.) (*1)

*1) If the power is cut off for more than 20 days, the error message "Backup data lost" will be displayed at the next start-up and the clock data will be initialized to "00:00:00 January 1, 2000". Log data, keep relay, and internal register.

Interface Specifications

|			
Serial interface (COM) (*2)	RS232C	Electrical characteristics	EIA RS232C compliant
		Transmission speed	1200 / 2400 / 4800 / 9600 / 19,200 / 38,400 / 57,600 / 115,200 / 187,500bps (*3)
		Synchronization	Asynchronous
		Communication method	Half or full duplex
		Control system	Hardware control or none
	RS422/ 485	Electrical characteristics	EIA RS422/485 compliant
		Transmission speed	1200 / 2400 / 4800 / 9600 / 19,200 / 38,400 / 57,600 / 115,200 / 187,500bps (*3)
		Synchronization	Asynchronous
		Communication method	Half or full duplex
		Control system	None
	Connector		Detachable 10-pin terminal block
Ethernet interface (LAN)	Interface		IEEE802.3u (10BASE-T/100BASE-TX) compliant
	Connector		Modular connector (RJ-45)
USB interface (USB1) (*4)	Interface		USB2.0 High speed (480Mbps)
	Connector		USB Type A connector
USB interface (USB2) (*4)	Interface		USB2.0 High speed (480Mbps)
	Connector		USB Type A connector

*2) RS232C and RS422/485 can be used simultaneously.
*3) 187,500 bps is available only with , SIEMENS SIMATIC S7-300/400 series (MPI port direct connection).
*4) USB output current varies depending on the mounting direction and operating temperature.

Serial Interface Connector Terminal Arrangement

Accessories

Name / Shape		Part No.	Quantity	Specification	
System integration software		SW1A-W1C	1	Automation Organizer (Includes WindO/I-NV4)	
Protective film		HG9Z-1E4PN05	5	Protective film to cover the panel surface.	Dimensions: 120.8 x 83.5 mm Thickness: 0.153 mm
UV protective film		FT9Z-1E4PN05		Protective film to cover UV over panel surface. Spray with water to attach.	Dimensions: 119.8 x 82.5 mm Thickness: 0.153 mm
USB relay port		CW1X-USB20-1M	1	Bezel color: black	Install on control panels to connect the USB connector. Cable length: 1m USB2.0 TypeA
		CW4X-USB20-1M		Bezel color: metallic	
RJ45 relay port		CW1X-RJ45	1	Bezel color: black	Install on control panels to connect the LAN cable of the RJ45 connector. Ethernet interface
		CW4X-RJ45		Bezel color: metallic	
Rubber cap (*1)		CW9Z-D1X1	1	Protective rubber caps for USB relay port and RJ45 relay port Material: TPE Color: black Protection: IP65/67	
Plastic cover (*1)		CW9Z-D1X2	1	Plastic cover for protection of USB relay port and RJ45 relay port Material Lens: Polycarbonate resin　　　　　Body: Polyamide resin　　　　　Packing: NBR Color: Translucent Protection: IP65/67	
Power supply terminal connector (for changing wiring direction)	Normal direction / When using connectors for changing wiring direction	FT9Z-1X03V	1	For HG1J Removable terminal block 3-pin, push-in terminal Not included with the main unit. Use for changing the wiring direction.	

*1) Exclusive for CW series relay ports (CW1X /CW4X) and cannot be used for other models.
　Refer to the instruction manual from the QR code on the right for details on how to use the product.

Maintenance parts

Name	Shape	Part No.	Quantity	Description
Mounting clip		HG9Z-4K2PN04	2 (4)	2 pieces are included in the main unit.
Serial interface connector		FT9Z-1T10P	1	Removable terminal block 10-pin, push-in type One plug is supplied with the main unit.
Power supply terminal connector		FT9Z-1X03P	1	Removable terminal block 3-pin, push-in type One plug is supplied with the main unit.

Instructions

Be sure to read the instruction manual carefully before performing installation, wiring, or maintenance work.

For details on mounting, wiring, and maintenance, see the instruction manual from the below URL.
HG1J: https://product.idec.com/?product=HG1J

HG1J

- This product has been manufactured under strict quality control. However, if you intend to use this product in applications where failure of this equipment may result in damage to property or injury, ensure that it is used in conjunction with appropriate fail-safe backup equipment.
- Turn off the power to the product before starting installation, removal, wiring, maintenance, and inspection of the products. Otherwise, there will be a risk of electric shock or fire as well as damage to the equipment.
- Emergency and interlocking circuits must be configured outside of the HG1J.
- Do not use touch switches and the function keys for an emergency circuit or an interlocking circuit. If the HG1J fails, external equipment connected to the HG series will no longer be protected, and serious injury to operators and equipment damage may be caused.
- Use the product within the environmental limits given in the catalog and manual. Use of the product in high-temperature or high-humidity environments, or in locations where it is exposed to condensation, corrosive gas or large shock loads, can create the risk of electrical shock or fire.
- The HG1J is designed for use in pollution degree 2. Use the HG1J in environments of pollution degree 2. (based on the IEC60664-1 rating)
- Install the HG series according to the instructions in the User's Manual. Improper installation will result in falling, failure, electrical shock, fire hazard, or malfunction of the HG series.
- Use a power supply of the rated value. Using a incorrect power supply may cause fire.
- The HG1J uses "PS2" as DC power supply. (based on the IEC / EN61131 rating)
- Use an IEC 60127 approved fuse on the power line outside the HG1J. (Applicable when the equipment with built-in operator interface is exported to Europe.)

- When exporting the HG1J to Europe, use an EU-approved circuit protector. (Applicable when the equipment embedded with the operator interface is shipped to Europe.)
- The touch panel built-in the HG1J is made of glass. The touch panel will break if exposed to excessive shock. Be careful when handling the HG1J.
- The protective film affixed on the display of the HG1J is used to protect the product from scratches during transportation. Remove the protective film before use. If the protective film is not removed, depending on the operating environment, the film may become cloudy and adhere to the display part, making it difficult to remove.
- Do not press or scratch the touch panel and protection sheet with a hard object such as a tool.
- Do not install the HG1J in areas subject to strong ultraviolet rays, as ultraviolet rays may impair the quality of the LCD.
- Note that small black and bright dots may show up on LCD Screen. This is not a failure or malfunction.
- The backlight life is not guaranteed and refers to the time until the brightness reduces by half after use at 25°C from the initial value. The actual life depends on operating environments and conditions.
- Protection degree refers to the front of the surface after mounting. Although the protection structure satisfies various testing conditions, operation is not guaranteed under certain environments. IP66F/ IP67F oil-proof structure satisfies oil-proof test conditions listed in the appendix of Japanese Industrial Standard JIS C 0920. Operation is not guaranteed when using oil for a long period of time or oil that does not satisfy standards. Please test/check before use.
- Do not attempt to disassemble, repair or modify the product. Otherwise, electric shock, fire, or malfunction may occur.

Ordering Terms and Conditions

Thank you for using IDEC Products.

By purchasing products listed in our catalogs, datasheets, and the like (hereinafter referred to as "Catalogs") you agree to be bound by these terms and conditions. Please read and agree to the terms and conditions before placing your order.

1. Notes on contents of Catalogs

(1) Rated values, performance values, and specification values of IDEC products listed in this Catalog are values acquired under respective conditions in independent testing, and do not guarantee values gained in combined conditions.
Also, durability varies depending on the usage environment and usage conditions.

(2) Reference data and reference values listed in Catalogs are for reference purposes only, and do not guarantee that the product will always operate appropriately in that range.

(3) The specifications / appearance and accessories of IDEC products listed in Catalogs are subject to change or termination of sales without notice, for improvement or other reasons.

(4) The content of Catalogs is subject to change without notice.

2. Note on applications

(1) If using IDEC products in combination with other products, confirm the applicable laws / regulations and standards.
Also, confirm that IDEC products are compatible with your systems, machines, devices, and the like by using under the actual conditions. IDEC shall bear no liability whatsoever regarding the compatibility with IDEC products.

(2) The usage examples and application examples listed in Catalogs are for reference purposes only. Therefore, when introducing a product, confirm the performance and safety of the instruments, devices, and the like before use. Furthermore, regarding these examples, IDEC does not grant license to use IDEC products to you, and IDEC offers no warranties regarding the ownership of intellectual property rights or non-infringement upon the intellectual property rights of third parties.

(3) When using IDEC products, be cautious when implementing the following.

i. Use of IDEC products with sufficient allowance for rating and performance

ii. Safety design, including redundant design and malfunction prevention design that prevents other danger and damage even in the event that an IDEC product fails

iii. Wiring and installation that ensures the IDEC product used in your system, machine, device, or the like can perform and function according to its specifications

(4) Continuing to use an IDEC product even after the performance has deteriorated can result in abnormal heat, smoke, fires, and the like due to insulation deterioration or the like. Perform periodic maintenance for IDEC products and the systems, machines, devices, and the like in which they are used.

(5) IDEC products are developed and manufactured as general-purpose products for general industrial products. They are not intended for use in the following applications, and in the event that you use an IDEC product for these applications, unless otherwise agreed upon between you and IDEC, IDEC shall provide no guarantees whatsoever regarding IDEC products.

i. Use in applications that require a high degree of safety, including nuclear power control equipment, transportation equipment (railroads / airplanes / ships / vehicles / vehicle instruments, etc.), equipment for use in outer space, elevating equipment, medical instruments, safety devices, or any other equipment, instruments, or the like that could endanger life or human health

ii. Use in applications that require a high degree of reliability, such as provision systems for gas / waterworks / electricity, etc., systems that operate continuously for 24 hours, and settlement systems

iii. Use in applications where the product may be handled or used deviating from the specifications or conditions / environment listed in the Catalogs, such as equipment used outdoors or applications in environments subject to chemical pollution or electromagnetic interference
If you would like to use IDEC products in the above applications, be sure to consult with an IDEC sales representative.

3. Inspections

We ask that you implement inspections for IDEC products you purchase without delay, as well as thoroughly keep in mind management/maintenance regarding handling of the product before and during the inspection.

4. Warranty

(1) Warranty period
The warranty period for IDEC products shall be three (3) years after purchase or delivery to the specified location. However, this shall not apply in cases where there is a different specification in the Catalogs or there is another agreement in place between you and IDEC.

(2) Warranty scope
Should a failure occur in an IDEC product during the above warranty period for reasons attributable to IDEC, then IDEC shall replace or repair that product, free of charge, at the purchase location / delivery location of the product, or an IDEC service base. However, failures caused by the following reasons shall be deemed outside the scope of this warranty.

i. The product was handled or used deviating from the conditions / environment listed in the Catalogs

ii. The failure was caused by reasons other than an IDEC product

iii. Modification or repair was performed by a party other than IDEC

iv. The failure was caused by a software program of a party other than IDEC

v. The product was used outside of its original purpose

vi. Replacement of maintenance parts, installation of accessories, or the like was not performed properly in accordance with the user's manual and Catalogs

vii. The failure could not have been predicted with the scientific and technical standards at the time when the product was shipped from IDEC

viii. The failure was due to other causes not attributable to IDEC (including cases of force majeure such as natural disasters and other disasters)

Furthermore, the warranty described here refers to a warranty on the IDEC product as a unit, and damages induced by the failure of an IDEC product are excluded from this warranty.

5. Limitation of liability

The warranty listed in this Agreement is the full and complete warranty for IDEC products, and IDEC shall bear no liability whatsoever regarding special damages, indirect damages, incidental damages, or passive damages that occurred due to an IDEC product.

6. Service scope

The prices of IDEC products do not include the cost of services, such as dispatching technicians. Therefore, separate fees are required in the following cases.

(1) Instructions for installation / adjustment and accompaniment at test operation (including creating application software and testing operation, etc.)

(2) Maintenance inspections, adjustments, and repairs

(3) Technical instructions and technical training

(4) Product tests or inspections specified by you

The above content assumes transactions and usage within your region. Please consult with an IDEC sales representative regarding transactions and usage outside of your region. Also, IDEC provides no guarantees whatsoever regarding IDEC products sold outside your region.
